Our Goal:

The PT + Mains Fusion Program is designed to provide UPSC aspirants with a comprehensive and integrated approach to both the Prelims and Mains stages of the examination. Our mission is to bridge the knowledge and analytical gaps, ensuring that candidates are equipped with both factual accuracy and deeper understanding.

Through a combination of practice tests, current affairs integration, and subject-focused question sets, we aim to enhance the candidate's ability to connect concepts across various disciplines. With tailored feedback, self-assessment sections, and in-depth solutions, aspirants can refine their preparation strategy and strengthen their exam approach.

Our goal is to provide a holistic preparation journey, helping you navigate through the challenges of both Prelims and Mains, ensuring that you are well-prepared to tackle the UPSC exam with confidence and clarity.

Program Highlights:

Prelims and Mains Test Series: A total of 22 Prelims sectional tests (as part of PT Nuclear) and 14 Mains tests, including 8 half-length GS tests and 6 full-length tests (4 GS mock tests and 2 Essay tests).

Comprehensive Coverage: Covers all key subjects including Geography, Environment, Polity, Economy, Science & Technology, Ethics, Essay, and Current Affairs.

Essay Writing: Special focus on essay writing with 2 dedicated tests during the Mains preparation cycle.

Mock Tests: Full-length mock tests simulating the actual UPSC exam for both Prelims and Mains are provided.

Online Access & Flexibility: Tests available in PDF format and through our website for flexible on-demand access.
